

Many of farmers, gardeners, governmental & private experts, deputies and managers of irrigating and agricultural ministries have taken apart.

Besides many of foreign businessmen and second grade of Australian embassy in Iran: Mr visited this exhibition.

Th ministry of jihad-e-agricultural: Unsystematic and inappropriate import is objected by our prime leader, religious seniors and our society

Mr. Khalilian said: “unfortune, many unessential goods are imported while we are producing the same one in our country, e.g: importing driedmilk while many of our produced milk are not used, or fruites like: French apple, shillian grape and egypt orange.

The main challenge is forbidding this kind of import, so we`v planed a programme for managing agricultural product`s import in the last month, aiming less damaging our farmers.

He addressed to mediators whose action is the most damage to our people.

“We arenot disagree with systematic import but with nonlogic and unessential.

As our prime leader, religious seniors and people are disagree with these kind of Importing.

Committing 20 items of 50 fundamental duties of rural Cooperation organization to private sectors

Engineer Sajaadi, the head of rural Cooperation organization talked with specialized magazines and reporters.

He told: “we have 50 major duties, 30 specified of these, are due to gov-erners, and other 20 items will be supported by private sectors”.

“Up to now, this association has been responsible for rural`s challenges, while it`s most important purpose is improving rural companies for more Commercial activities, helping people`s income and mostly rural`s man-agement”.

“Having more than 13250 Companies, 6/5 million membership, 30,000 non govern-mental employees, has divided into two main part: poultry & gardening. Our organization Consists of farmers, villagers and gardeners all over the country. We have represented 3 major projects, Firstly to strengthening our societies, secondly to progress and improve-ment of our Companie`s quality.

Third plan is a Comprehensive commercial project and acts in marketing for our agri-cultural products.

He expressed, “besides, We are aiming on: management improvement, to identify and introducing the well –named Cooperatives, forming agricultural companies, grading, evaluating and teaching courses for our members”

Boycotting`s influences on Agricultural economy

Here, It is an important question: what are the influences of the security Council of united nation`s forth boycotting on our agricultural economy, what should we do to limiting it`s negative effects? What is our governor`s main duty? Supposing that it gradually, direct or indirect affects our agricultural economy as the prices will be increased and declining the internal productions, what is our statesmen for protecting our agricultural status?

Now, essentially our governors should have more pay attention to this permanent, national, vital energy and forbidding the agricultural product`s import, moreover they must help our initial materials importers by making easy foreign currency for them. But unfortunately our statesmen was submitted to these terrifying boycotts such as what they acted about rice, sugar, and some other species of fruites.

It`s logically, importing of initial materials alongwith importing agricultural products.

It is recommended organizing a committee Consist of agricultural experienced in food and especialized magazines in this field, aiming to evaluation different point of views and representing s newer methods.

The 4 th International Exhibition Agricultral Technology of Infrastructure In Zanjan

This exhibition celebrated in 13 th Mehr, 1389–5 october 2010–participating 115 active company in these fields: irrigating and green housing adequets, fertilizers- seeds, and agricultvral machineris, meanwhile successfully ended after 4 days.

It had been holded for 3 previous years where by deputy of waer and soil, agricultural ministry had Considered in karaj.

But this exhibition was hold in the high-equipped place of Caspian with more than 5000 quarter meters.

It started with participating of 2 deputies of agricultural & industry ministry and Engineer S ajaadi, deputy of water and soil industry.

Mr. Khoshnood, deputy of herbal productions, also public and private experts.

Noticeable this province Consists of 40 percent of the most activest Companies, and it`s near to 10 provinces in north west of our Country, So most of Visitors of this exhibition Came from western and northernwest cities.
