

Its technical manager is Dr. Sooren. Pezeshkian, who is the former and the pioneer of Concentrates in Iran. This grand manufactory is equipped with witte-Lastrup machineries from Germany.

This advanced manufactory was founded in a ceremony by attending of: province general,

The manager of mine and industries organization, one of representatives in Majlis, governor general, director general of veterinary organization and some of high managers of Chom Province.

Oil extraction from tea seed, for the first time in Iran

Mr. Ali. Moharrer, The new manager of Tea association expressed: “We are facing with 20,000 wasting figure annually in our Tea gardens, meanwhile our gardeners easily Can Collect and Sell them, so they will provide more income for their family”

“Further more most of our gardeners are as single product with limited and small gardens, so establishment of oil extraction from Tea Seed will increase their income. This oil is as benefit as olive oil.

“This foundation will be started with supporting of private sectors, while we need more supports of jihad-e-agriculture ministry.

Answering to World Trade Orgnization about Iran`s Trading Situation

Deputy of minister, undersecretary of Commerce organization told: “The members of International Trade organization asked us about 700 questionnaires about our Country`s trading. 59 associations and units helped us; About 50 associations answered to 550 questions, while about 400 questions will be observed and prepared for the last phase”

Hementioned that the remained questions will be checked and submitted as soon as possible.

The last interview of Minister and existed ambiguities

In this article, Editorial in chief of “Damparvaran” referring to the interview of the minister of jihad-e-agriculture in 18.Bahman.1389, as his last interview in this year;

An interview which by has been statistics for our Country`s agriculture. Such as: specifying facilities for National Development Fund, supporting from fuels and water transportation systems, replacing worn out tractors and machineries, increasing investigation shares, giving loans to farmers, giving facilities for high-pressured irrigating systems and so on.

Of course these assertions are hopeful, but we are actually meeting two ambiguity and questions: first, will these figures really be fulfilled? And will these figures be seen in our farms?

Second, If these figures are real and applicable, why the society representatives are Continously insist to impeaching of the minister of jihad- e-agriculture? Won`t this complex and ambiguity situation decline further agriculture investigations?

Dr.S.Khalilian: our agriculture Section is stepping new phases of development

The minister of Jihad-agriculture asserted in an interview: “we are specifying annually 5000 milliard tomman to developement of infrustruc-tures.

He added: “why we compare our agriculture situation before and after our revolution, we will confront with higher Cultivated farms, increased export income for our products, generating 130,000 new jobs, developing highly pres-sured irrigating systems, supporting the milk producers and forming the House of milk, developing farm nearby dams, facilities awarded to agricultural sectors by National Development Fund”

“We`ve managed in future planning to improve this basic sector to 7 percentage, and also increasing the investigation share from 5 percentage to 10, “ he mentioned.
