What is the real share of poultry and livestock producers from specified facilities by the cancelation subsidiaries law

At first, it was expected, this law promotes and conclude to higher profitability and lower total prices; but this main target is actually forgotten.

The writer of this article mostly cares to agricultural sectors. If we pretend to higher quality and lower prices, so we must logically protect our producers in poultry and livestock and breeding industries.

It's not as a claim, if we declare that our poultry and livestock producers have reached to a very high level of success. So it's time, our state to fulfill their promises as soon as possible.

In this case our large economy will reach to more net income, our consumers will meet more cheap products, the last and the most important, we will not act as a weak importer.

While all above mentioned will be occurred provided that, the exact share of this important sector will be specified from the income of higher prices of energy sources.

President; Mr. Ahmadi-Nejad

“In our country as a draughty one, we should have more investing on other related industries instead of agricultural sectors only. We should correct the using methods of water sources and irrigation.”

“Agricultural related industries have the essential role, while our people never can live without agricultural products.”

President referring to canceling subsidiaries law addressed to agricultural producers: “we have considered proper and considerable budget to our agricultural activities”.

He emphasized on changing irrigating methods: “Our state has considered 7,000 milliard Tommans for changing in irrigating methods.”

“We expect our farmers and managers provide and utilize the latest irrigating systems”, he said.
