

Mr. Taalebi told: "Agriculture Bank against other banks has many commitment and obligations, because it acts as an progressive engine in Agriculture. In agriculture activities, dividends and capital investigation has the less benefits, while investigating in this field is almost highly risked.

So we attempted to give an important ratified law from majlis by which investigators and pioneers can do invest for agriculture activities with lower risk. More details of this determining law will be published as soon as possible.

Dr. Talebi, Managing Director of Agriculture Bank stated his own opinion towards specialized magazines in this field.

He told: Many of these expert magazines and journals play very important role in progress of our agriculture and we can easily trust and depend on their experience

### **The ministry of jihad-e-agriculture represented: The state will guarantee 85 percent expenses of irrigating and soil reconstruction projects**

Mr. Khalilian represented: The state has Considered appropriate facilities to expansion of irrigating methods, by accepting 85 percent expenses of irrigating systems, soil and water reconstruction projects, it`s allowed to all of farmers to use of this project without no limit. And the state will exactly grant the needed facilities.

Successfully the state resist on expansion of infrastructural agriculture and also re-structure of canals, pipe transportation, Construction of pipe networks, in this year.

### **The celebration of the 18 th meeting of Asia and oceania Rural Expansion deliberation in Iran**

This meeting is celebrated by attedance of:

The first vise-president, The ministry of jihad-e- agriculture and representatives from 15 countries.

(CIRDOP) acts as an regional and global center which has direct cooperation with Fao. It has founded in 1979, centered in Bangal. Now its members are 15 countries.

Mr. khalilian, The ministry of jihad-e-agriculture announced in this meeting: These 15 countries have many cultural, social, economical common items. They have high degree of rural expansion experiences, so by more correlation and cooperation we will increase poverty in our rural regions.

The head of this deliberation declared: A large number of our rural people live in poverty, they have less possibilities and no job. The figures show that in 2011 the rate of poverty in these regions have increased, while Two third of pour people live in Asia and oceania. So it`s a fact that this deliberation should attempt for more cooperation, more exchange of views to reach to rural with less poor and less poverty.

## **What is the real dollar rate? How is it figured out? A fundamental question which by it`s answer will be solved many economical absurdities!**

There is no doubt that Aiming subsidiaries law has many privilages such as: providing an economical system with high and free competi- tion, and also making manifest all the co-related chains of the huge economy.

It means that just like as productivity, the Dollar rate should be mani- fest and clear. For it will affect on quality, profitablity and Competi- tion.

As available lower prices energy resourses will Cause decreasing production level and Competition ,on the other hand accessibility of lower price dollar will generate economical distinction and differentiation, negative balance on imports and exports now we ask this question: How should definite the dollar rate in our huge economy.

There are four criterion to define the real rate of Dollar:

- 1- Considering the basic year to evaluation
- 2- Calculate balance rate of national and global inflation.
- 3- evaluate some basic goods basedon regional analog.
- 4- Non- direct interference of central banks.

As we have observed fluctuation of prices recently, it`s quite obvious, these unstable prices will highly affect on all chains of our economy and provide insecurity on all as- pects and for all of economical activities except middlemen and dealers.

So essentially the real rate of Dollar should find it`s place in economy, on the other side, salaries, occupation and investigation should be increased.

### **Damparvaran Magazin`s Exclusive interview with Dr. Talebi: Agriculture Bank, A confident security forwards to modem agriculture**

In this private pressinterview, for the first time, Dr. Talebi, has declared hopeful and positive projects of agriculture bank.

He announced: "Many of our managers have inves- tigated in years before. But they had to settle their bank debts according with current price while this caused their factory was stopped with many jobless people.

However we managed an expert bank team to evaluate this challenge. They suggested to substitu- tion Electronical supervising systems instead of some one`s tastes.

In the name of GOD
