

range of farmlands”.

He added: “we are hopeful to better profiting of water and caltivating more lands in our country”.

A summary of progressive events in our poultry industry during 60 years ago

For whom are willing to be more familiar with his-tory of poultry industry and it`s challenges and events in Iran.

“Damparvaran” magazine by analyzing transfor-mations and history of this affective industry, has tried to reflect the role of private and state sectors in progresses of this industry, political strategies of our state, projects of releasing the egg and poultry pro-duction, commercial and economical effects of this grand industry on our food supplying.

F.M.D (foot and mouth disease) will be eradicated upto 2020

Deputy of veterinary organization stated: “we are hopeful to be expirpated this disease in Iran and regional countries upto 2020.

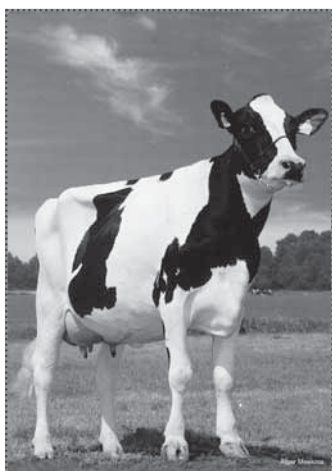

We have had granted near to five milliard tommans to our animal husbandries and breeders for tuberculosis and malta fever (brucelosis).

Mr. Meshkat refered to karimeh- Kongo fever: “In the present time 35 country are confronted with this threatening disease, and are have some plans for preven-tion”.

Mr. Meshkat added: “We have organized fraining courses for veterinary forces, and workers of jihad-e-agriculture during past year”

“Veterinary organization had a special attention towards food ndustries healthy in this year, so this organization has or-dered taking sampling of poultry and husbandry products such as red-meat, white-meat, fish, egg, milk and poul- meat”.

“Besides supplying organic products in considered too. Meanwhile using drugs and antibiotics is forbidden in prod-ucts in recent year”.

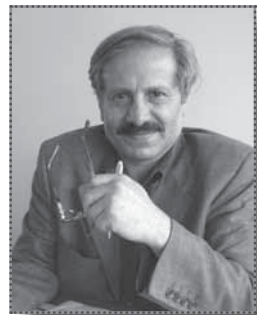

Do we have forgotten industries of poultry machineries and vehicles?

Here in this article “Damparvaran Magazine” suggests to stablish an especial cummitte within the Agricultural Expansion Assembly, for poultry machineries industries.

The editorial in chief of this espezialized magazine, refers that it seems our state and majlis have completely forgotten these activities during past ten years none of statemen or majli`s representatives have had no attention or encouraging action towards this industry.

While these forgotten industries have considerably progressed otherwise conferring with these challenges: low degree of cash capital, providing raw materials, export, reconstruction of marketing in neighbouring countries, non – supporting of economical or political regional by our state.

Our ministry of jihad – e – agriculture should has more special attention to these affective and determining activities in their gatherings and delebrating councils and it seems necessary to form an specialized committee in our president of the republic office.

Announce your survival conclusions by end of eight set of majlis

Here the editorial of this article, F. Masoudi analyses four-years activities have taken place in eight set of majlis in agricultural sectors. She has attended to laws which have been approved in this period for agricultural sectors progresses, while some of them haven`t been fullfiled yet. Reporter of this article announced that the intervals of these laws approving and their execution is so long that some important part of them will

be forgotten.

Besides, F. Masoudi, has suggested for more evaluation and more inspection for agricultural laws which has some wrongs.

International associations ans experts admired the speed of newest irrigating systems in Iran

Mr. S. Khalilian stated: “while having eight million and five hundred ha farm-lands, we are able to irrigate near to halg of this lands”.

“Many of International experts and associations admired usage of newest irrigating systems in our country, they highly cares how Iran is able to do irrigate these high
