

acting as a complete archive in multi – activities and different sections of agriculture and husbandry.

The price of warranted- buying per each killo wheat increased to 420 tommans

The ministry of jihad-e-agriculture announced; “Our cabinet approved that each farmers who sell one killo wheat to the state, so he will be paid 25 tommans award; while the price of warranted buying of each killo will be reached to 420 tommans”.

“our farmers objected to price of last year toward the state, finally by supporting of the ministry of industry, mine and commerce and also by agreement of our president this price is increased to 420 tommans.

Iran`s shining Report- Card in husbandary diseases declining

Mr. S. Khalilian participating in celebration of 80th section of (WHO) world health organization, expressed: “Iran acts successfully in prevention and elimination of cattle`s diseases.

Iran has been highly progressed in prevention, control and extirpation of animals between its regional countries”.

“We are ready to have more cooperation with our regional countries in these feilds: expert training, Vaccine preparation, animal drug, diseases combat and especially transporting embryo’ he added.

Allocation 5000 miliard Rials for water and soil projects

Deputy of water, soil and industries of jihad-e-agriculture ministry, Mr. Sajadi talked in national gathering for water soil construction and irrigating systems in karaj- pardis, Teran university.

Mr. sajadi expressed: “The new credit for soil and water projects is 3/5 times higher than last year. We have executed grand projects by which our lack of water has been averted.”

He added: “we have planned to utilize of 90 percent of our water sources for our farming and gardening”.

Oppression of unemployment and inflation

In this leading article, “Damparvaran” magazine expresses why agricultural and poultry products are supplied in lowest prices .on the other hand it evaluates high costs and inflation.

It`s a fact that the value of Rial has declined, salaries are low, unemployment has highly increased and finally our people`s buying ability is very low. The author refers to repeatedly objections of people, associations, unities, assemblies toward the high prices. In this case our state and majlis (parliament) should reply to these objects.

It`s not really obvious who or which organization is responsible for?

Across with aiming cooperative law inevitable challenges

The first part of this note is published in the previous article by editing of Mr. Manssoor Ansari. It analyses the attitudes of majlis (parliament) and the state.

Our state asks to increase the price of energy sources (gas oil, gasoline, petrol, natural gas, power and water) in a rate which provides 135,000 milliard tomman income, while the majlis is opposed with this rate; majlis believes this increasing price will meet the people opposition and more inflation the editor of this article has suggested 4 solutions for preventing more injuries to our agricultural sectors.

A glance towards “Damparvaran” in past year

“Damparvaran” magazine publishes the most important reports and articles related to husbandry, poultry and agricultural events in the end of each Persian year.

As a fact there is no essential and major event in agricultural sectors in the last year, which has been forgotten by “Damparvaran”. By the other word this magazine has generally published and analyzed all the subjects which are related to agriculture politics, planning for economical sectors and all of progresses which have taken place in Iran and abroad.

For example we can refer to these events: many different scene of international agriculture economical and commercial events in the world, more and more need to food and feed in populated regions. contrary to its name: “Damparvaran” which seems that is only related to poultry and husbandry events and challenges, while this magazine analyzes all subjects such as economical agricultural and investigation in all sectors; so it is easily
