

Definit and non-definit Presidential candidates are assured of vote taking from farmers and rural societies

It seems that non-definit and definit Candidates supposing for Vote taking from rurals and farmers in presidential ellection, in next khordad. They actually never count on agriculture of our Country.

These candidates should be bound for presenting the plan of economical, political, industrial, mine, agriculture commercial and soon.

They should be obliged for presenting their practical economical plans. They should announce that which kind of econemical strategies will be operated in agricultural sectors?!

Iranian Antitoxines manufactured by Razi Institute have been useful for Amerian soldiers

The head of Razi association told: This is the largest producer of drugs, vaccines for human, husbandry, Poultry and fisheries. This nstitute is producing more than 70 varieties of drugs and vaccines.

Dr. Ghadakchi added: Highly amount of our products are exported to Tajikestan, Syria, lebanen, Pakistan, Afghanistan, Iraq, Middle East, Jordan.

He pointed: "Our antitoxins are supplied in Afghanistan, and then these products are sold to American soldiers in Afghanistan. This shows that advanced Countries have a property Confident to quality of Iranian Vaccines and cerums".

Vital supports of Veterinary organization is necessary for poultry products

Mr. Meshkat. Deputy of healthy in veterinary organization noted: "We had only four industrial slaughter house in first phase of Islamic Revolution".

"At present time, we are producing one million tones redmeat and 1.800.000 tones poult meat in ayear: besides we produce 10 million tones milk and 900.000 tones egg in a year".

Mr. Meshkat said: "We observe that howmuch The quantity of production is increased, then alongwith the amount of diseases will be added,too".

He added: "95 percents of drugs, Vaccines, Bioliogic products for poultry, husbandries, fishery and honey bee are produced by 151 national producers."
