

These two congresses were held for 3 days by the presence of highly populated experts and pioneers of Dr. Rohani consisted of many important points which had no precedence, and declares that Dr. Rohani has highly knowledge of bio-technological points.

These two gatherings were held by managing and directing of Dr. Ghareh yazi, the former of agricultural biotechnological researching center, and his team.

Besides “Damparvaran” magazine was selected as the best, affective and active magazine in agriculture by the manage director group of these two gatherings.

### **Grisis in the price of feed of poultry**

The recent changes in source foreign exchange were so unexpected that caused poultry industry with multi-sided crises and challenges. The foreign exchange increased from source to converted one, which this change caused highly increasing price of soya and corn bean meal. (each dollars increased from 1226 to 4887 tomans) The reporter of Damparvaran has had a press interview with the managers of 4 poultry formation who have 90 percent of national egg and poulst meat in Iran.

This press interview makes reveal the grand challenge which happened in poultry industry. In this condition importers have to pay double foreign exchange for releasing soy bean meals and corns in Customhouses. While they do not pay such prices and others who have these products never supply because the prices are not stable, consequently sub producers of egg and poulst-meat are so anxies and worry for their productivity future. Experts beleive that prices of these products will be increased to 40 percent by recent.

## General diplomatic is empty of agriculture diplomacy

In this volume of “Damparvaran” is suggested identifying the agricultural diplomacy. The author of this article “Mansoor Ansari” considering to Iran`s boycotts and criticizing inatentiveness towards our agriculture in abroad politics. Experts Believes that if we had an active diplomacy for agriculture, then our farmers, producers and finally customers obviously had less economical losses. Because boycotting whatever ends to “food” is rejected by public thoughts. So it`s needed to have an active and affective diplomacy for our agriculture in international relationships.

## Second part of interview with Dr. I. Kalantari

Dr. I. Kalantari was the ministry of agriculture for 13 years ago and now he is the head of secretary of “Home of Farmer”. He refered to some problems such as: underground waters is declining, Shortage of water. He told: “We should consider 50 milliard dollars compensation for declining underground waters about 500 millinon qm.”

Dr. Kalantari refered to subjects such as: “soil and water preservation, Enough investigating and visible prefit in agricultural activities. Competitive production, growth of productivity and increasing quality of production.

## Reprot of 2 neo-technological meetings in Iran

The eighth bio-technological congress and fourth bio-immunity was opened by massage of Dr. H. Rohani. The selected president of Iran .

In the name of GOD
