

many organization agree with supply of this kind of milk.

This perform is exactly an serious threat for health and security of suppliers and will causes many diseases.

SPACE 2013: a record-beating show

In this issue of DAMPARVARAN magazine you will read a report, regarding SPACE exhibition which held in RENNES (FRANC).

The 27th SPACE held from 10 to 13 September 2013 in Rennes beat all attendance records for the number of visitors, in particular foreign visitors, number of exhibitors, size of the exhibition area and number of new products presented.

There were 114,591 visitors (6% more than in 2012, beating the 2003 record) including 12,298 foreign visitors (+12%) from 110 countries. This increase in the number of visitors and the large area covered by stands (67,000 m² net exhibition area) helped to promote ideal conditions for trade and business discussions.

The significant increase in the number of foreign visitors illustrates the position of SPACE as one of the leading animal production shows in the world. This increase, marked by a large number of visitors from Asia (China, Vietnam, etc.) and West Africa, met the expectations of exhibitors for whom exports are the key to increasing sales and long-term stability. The large number of countries who sent representatives, the large number of foreign journalists (73) and the number of policy makers within these visiting delegations demonstrate that SPACE is representative of the animal production sector and a world-wide crossroads.

Abroad farmlands project

In this article, editorial in chief of “Damparvaran” analyses farming in other countries.

The speaker – man of state has declared that we have approved a positive applicable rule about farming in abroad farmlands. This announcement has obligated to jihad-e-agriculture.

Mansoor Ansari editorial in chief of “Damparvaran” writes: As we are facing with shortage of water in our country, so this suggestion is a very useful solution for underground water preservation.

Damparvaran has translated and published a related topic in 1988 according to

“Agrifuture magazine”. In this method a country will buy or rent abroad farmlands, and then after cultivation, will import agricultural products to its own country.

effects of Iran`s agriculture on national piece and security

Researching center of majlis announced that: “There is no sign of our agriculture and natural sources in national statistics.

“Besides, announced figures related to this sectors in national productions is lower than the real figures. The ability of our agriculture and natural sources are not appropriately used.

Criticizing usage of wholesale (un – pasteurized) milk

In this topic author of “Damparvaran” is seriously objecting husbandries unity`s suggestion for using un-pasteurized and un-Homogenized milk.

The author writes why and how the unity of husbandry has made veteri-
