

Engineer. A. Ghalandari, as the manager of this collection have had successful activities during 30 years ago in this field.

This successful group has imported 1000 heads of “Holesteins” from Canada. He has traveled 6,000 kilometers in Canada for selecting the best.

TV interview of president:

We have had large improvements in our agriculture during 8 month ago

The Prime president, addressed to recent progresses in agricultural movements during first 8 month of 11 the state.

He added: “Our society will be faced with good changes for prices of rice and wheat price in september. We just now are able to purchase products from farmers and pay them by cash. We have purchased 200,000 tonnes wheat up to this month.

Our agricultural system which is based on subterranean water source is registered as international herritage

It's sayable that 25 agricultural system from 11 countries are registered as below: Chiness rice fields, production system of rice, fish and duck in china, traditional agriculture in India, Japaness herds, Shepherd agriculture in India, traditional palm gardens in china, dark soil farms in Amazone ,lemon gardens in Italy, Chile's agriculture.

Just only in Farvardin, 13 million m3 water saving has happened

As announced by jihad-e-agriculture, 504 ha farmlands have been irritated by high pressure system at the first month of the year. Which caused 6,6 million m3 water profitability.

Based on statistics, 6079 industrial units have been started to work which have caused 460 occupations. Besides we have had 105,000 tonnes raw material utility.

Agricultural Product's export acts as a necessity for national productivity

The editorial of this article of “Damparvaran” refers to non-logical attitude of some experts who disagree with dairies and husbandry product's exporting; and announces this kind of attitude is completely contrast with agricultural benefits and it's never acceptable.

He announces agricultural export causes strongly national productivity. We can export those products which are economical and we import only those which are not economical in our country. In this case our agricultural situation will be more modern.

The most important agricultural motions in the past year

We started 1392 while increasing the rate of foreign exchange affected negatively on product's prices. People were being happy for getting cash cooperatives from the state, but it was not so long, because of highly increasing prices; so as the society announced: “We Don't want this cashes cooperatives, Do Decline the prices”

In the agricultural sectors we face with crisis of increasing prices soy meal and soya which are used as 70 percent of our feed and forage.

Then after presidential election, the state of “Delicacy and Hopefulness” started to work. While it's optimistic thought was making better of economical situations with support from “santrifuges”.

Then 500 million dollars was specified for fertilizers and poison and seeds by state and also 750 milliard tommans was granted for agricultural mechanizations improvements.

The main activities which taken place in 11 th state and last year are as below: “insistence of Engineer Hojjati for returning of company of supporting husbandry into jihad-e-agriculture ministry, execution of segregation law and the project of cultivating models; logical insistence on more profitability of water sources: evaluating food and feed's security and healthiness: discussion of foreign lands cultivation.

1000 heads of cattle of “Simmental” will be imported from Canada by “Taknam”

The grand farm of “Taknam” in Golestan is known as a celebrated farm in husbandry and cattle.
