

World Expo For Animal Husbandry And Processing, VIV Europe 2012

“Damparvaran” arranged a delegation tour to visit international exhibition in Netherland.

This group was consist of owner of husbandry farms, producers and grand factory of feed and vehicles.

This specialized group was going to have more relationship with pioneers of technology in this grand exhibition.

Of course, some people of this group had negotiation with some grand owners of feedindustry for installing and establishing a grand factory of feed and concentrates industry in worth of Iran.

The reporter of “Damparvaran” has prepared a visual report from this grand show and it`s Positive effects an our technology and productivity for helping our producers and factory owners.

Besides he has published visual reports form grand companies such as “BigDutchman”, Producer of machineries and vehicles of husbandry. “Jamno” and “kool&cel” producer of watering and feed vehicles. And also cellulosic pads for walls in husbandry farms and agricultural farms.

It`s say able Iran – Kish show “VIV” exhibition was a successful one.

By Support of Jihad-e-Agriculture’s Ministry, the Base Price of Milk Is Announced

The new price of milk, near to Half Dollar (1440 tomans), is confronted with acceptance of all husbandries and farm owners. One of them, Ahmad Ghalandari, a pioneer who had imported 1000 animal from Canada by airline; has admired from ministry by a message. For othertime, Mr. Ghalandari is going to import 1000 alive animal for Genomic. Generating and he believes that the fixed price of milk is suitable for farmers. Of course by

increasing the prices, it should beevaluated, too.

Having Approach On Rejection of War Hypotheses of Water and Food

The editorial in chief of “Damparvran” refers to the war which is predicted by some statesmen because of crisis of water and food.

Here he mentions that some Iranian intellectuals believed to this war during 1960–70 (1340–upto 1350) while it seems this belief has no logical reason in modern world nowadays. For world’s civilization and culture is in a phase that each country facing with lock of food products will strongly supported by other countries.

He added: “while severe sanctions, Iran could be able to import 7 million tons wheat in 2012 (1390) moreover beyond farmland – cultivation is a new method by which we can produce more grains and products in other countries farmlands.

Author recommends this applicable and profitable solution. Without no war between countries.

In this method a country allows other country to cultivate grains and other agricultural products in its lands and export to other regions around the world.

National Genomic Husbandry Products Imported To Farms

Dr.H.Varnaseri, the manager director of Husbandry Company of Jahed announced the conclusions of surveys on genomic products as below; “we have been succeeded to evaluate and study genomically our national husbandries by drawing out bull’s DNA while this study has been taken place for the first time in our country. It will push forward the process of productivity and breeding of all type of husbandries for 5 years, and of course has a promotional effect on white and red meat production which will cause lower prices in productivity.

Dr. Varnaseri added: “we have a highly optimistic and hopeful attitude towards this project; this event by itself is a revolution”. Besides he explained about other Scientific activities of husbandry products Company of “Jahed” and referred that: “While producing of genomic, we have declined each doze of produced sperm’s price down to one – fifth pair with international price of course it’s quality is just as standard as foreign countries.
