

participated altogether. In the chamber some workshops about milk, meat, food security, soil and water, and environment were held.

M. Ansari told: many experts from jihade – e – Keshavarzi Ministry, Environment, Bank Keshavarzi and other organizations were attended in the chamber during a week.

He said: many visitors asked their questions about agriculture, gardening, water crisis, genetics, mechanization and other subjects from the experts in the chamber.

The water is plundered by unallowed wells

Eng. Ali-Morad Akbari, water and soil assistant of Jihad-e-Keshavarzi Ministry told: the 8th Exhibition of Infrastructures technologies in Agriculture will be held in 15-18 Dec 2015 in Karaj to show the abilities of private sector in irrigation systems, valves and joints, designing and engineering. Gradually, this exhibition has created the belief in decision-makers that we have the abilities to manufacture the irrigation equipments for farm and gardens. He added: to equip 400/000 hac., It is forecasted for current year, Jihad-e-Keshavarzi Ministry has a program to improve water usage. According to the 6th development plan, the management of water must be transfer to private sector. He emphasized: We are serious to keep the ecosystems, environment and stable produce in all of the related programs. Our assessment is to use only about 60% of renewable water sources in agriculture sector, and efficiency coefficient must be 43 to 44%.

Eng. Akbari said: more than 300/000 unallowed water wells were dug only in 10 years, so billion cubic meters of water used without any calculation.

Change in water Governorship

The 8 th Exhibition of Agricultural Infrastructures and Technologies Will be held in the time that many subjects about water resource usage sq aquiferous protection, unallowed wells, stopping dams construction, to abondan water sources, and the most subject: “The necessity in changing water governorship” are the national problems.

Inpasttenyears,Damparvaranandotheragriculturalmagazines have analaized the water crisis matter. And many other problems like environmental difficulties, rural immigrations, water evaporation from dams basins and underground water sources problems have negotiated by many responsables of the country. To close the unallowed wells is a correct decision that can show the power of government to keep the water resources.

Time to Compile Water Usage

This essay was published for 7th Infrastructurs Irrigation Systems last year. Now, because of its worthy subjects, Damparvaran`s editorial group decided to publish it again.

In this essay many of necessary theoretical points to compile water usage were discussed and fucosed on government`s observation on these subjects. Accurding to government`s decisions, 550/000, hac in khozestan and Ilam Proviences were reconstracted and improved.

And to Provid the water for 437/000, has in Ilam and North – West of the country, 8 billion dollars were guaranteed.

Additionally, reconstruction of Sistan-Baluchestan Plane was put in order. Many of Such plans are designed to use the water and reduce water crisis.

Agri culture Publications, Voice of farmers

Mansoor Ansari, Board of Director of Agriculture and Food Industry magazines said to Iana reporter in Publications Exhibition: all of 55 magazines were attended in a same chamber under the name of “Specialized Publications Socitey”

He added: In last years these magazines were separated, but this year, all of them

In the name of GOD
