## **A few interesting reports from several parts of the world**

Massoud Ansari, "Agri- Industries Infrastructures Magazine" reporter, has translated and sent three subjects to magazine. The subjects are about a new gene to increase the yield of crops, Importing alfalfa by suadi Arabia and combating against an insect in wheat farms in Angula.

## **In spite of 164 votes of confidence; with Hojati to economical agriculture**

After many challenges about Eng. M. Hojati, and other options for agriculture ministry, he agreed to be in 12th cabinet.

According to Dr. Larijani, all of reformists and conservatists, believe in him. By this way, he can acquire vote of confidence from parliament. But here are some questions about him. First, does he wants to act like the past four years or decides to change his attitudes? Second, he announced that his programs are on resistant economy that is a general concept. The spirit of Hojati program does not define the role of agriculture in the world and global interactions. Also, it not clear if the agriculture sector is semi – conditional and semi – industrialized, without any changes in planting patterns and enhancing efficiency, and what about the life of farmers.

Finally, the 12th cabinet must observe about new methods and policies on economical agriculture for future four years.

## **20% Increase in Rice Produce by Certified Seeds**

According to Rice Research Institute in Mazandaran province, Dr. Erfani, told in 33th farm day: it is not possible to add the land farms for rice, but we have to increase production per/hec.

Dr. Erfani added: rice farmers plant certified rice seeds that can increase 20% in yield. Furthermore, they can save 500.000 m<sup>3</sup> of water.

Mr. Razavi, Mazandaran meteorology director managers said: the amount of 500.000 m<sup>3</sup> of water is three times of Shahid Rajaii dam capacity that is very important.

## **Four Milliard Tomans Credit for Forest Fires**

According to forest organization a session was held in attendance with natural resources and environment director generals of Fars, Ilam, Khoozestan and Kermanshah provinces. Also, the representatives of Defense Ministry, Armed Forces and Red Crescent were attsded. Some tactics was taken to settle helicopters for transferring
